DECEMBER ACCESSORIES UPDATE

What a great reception to the denim shirts. They never seem to wear out so I'm doubly appreciative of your wanting to get new ones.

There are a few tote bags--great for filling with goodies for the holidays—and beverage holders (remember they can be used for hot or cold). Both great stocking stuffers.

Thanks again for your interest and support. Irene

PRESIDENTS MESSAGE

The turkey is mostly gone and if you are like me, I am already tired of the Christmas commercials the TV stations are running. Yes, Christmas will be here and gone before we know it. It's a time of family laughter filling the rooms of your home. It's the joy of giving and sharing love to those we hold dear.

It's been a year since your votes of encouragement placed me in the Presidents chair of the Palomar Mountain V-8's and it's been a fun ride. We've heard from battery vendors to 1950 Ford salesman training videos. I found more fun videos to watch in 2016.

Our annual Holiday Luncheon will be at Carvers where your new board will be installed by taking the O Henry Oath. I need to thank each of the officers for volunteering to serve your club in 2016. I am excitedly waiting for the day when we all wear our holiday dress attire and have that Christmas smile. I want to thank the Christmas banquet committee for all their hard work preparing for this day.

Speaking of thanks, a big thank you goes to the Harris's for a wonderful overnight trip to Julian. Our visit to the California Wolf Center was an extra special treat that I for one did not know existed. Learning of the wolf recovery

that is going on today was worth the trip. Seeing the pack in action was extra special. But the topper was that Italian meal after our social hour in Jay & Janet's room. It's been a long time since the front desk was called for noisy party at 5:30 in the afternoon; we were only having a good time. 2016 will continue to be a fun filled year as I suspect there are a few tours in the planning stages already. You too can plan a tour, just send me the details and we will get yours posted.

I want to thank each committee chairpersons for all your hard work during the past year. My special thanks goes to Margaret Connelly & Robert McClelland. Without these two our monthly newsletter would have been much less than it is today. Bob Davis has driven many miles to keep our advertisers online. Carolyn Mears is always looking for a reason to send you a card, I so enjoy her enthusiasm. Irene Griffin keeping us well dressed and accessorized, my thanks goes out to each of you.

However it takes many to make a club. Each of us with our individual desires to keep our Ford's alive and running. So here is my heartfelt Christmas wish for you all, May you find Peace & Joy this Holiday Season.

Cal!

PART II SERVICING ELECTRIC FUEL GAUGES

FORD SERVICE BULLETIN for November, 1935

The only equipment needed to service the fuel gauge is two four-foot lengths of insulated wire equipped with clip terminals at each end.

The best way of testing either the Tank Unit or the Gauge Unit is by comparison with units known to be OK. Instructions for these comparison tests is as follows:

To Check Tank Unit

1. Disconnect wire at Tank Unit and connect it to new tank unit. Ground new tank unit to car frame and turn on Ignition Switch.
2. Move float of new Tank Unit from empty to full position and watch action of the Gauge Unit while doing this. (Allow 10 to 15 seconds for gauge to read full scale.)
3. If Gauge Unit now registers correctly trouble is at one of the following points:
 - (a) Original Tank Unit is improperly grounded (because of paint or grease) and this must be corrected, or
 - (b) If car is radio equipped the condenser attached to tank unit may be "shorted." This would cause over-reading when ever Ignition Switch was on. Condenser can be checked by disconnecting wire leading from it to Tank Unit. If gauge operates correctly with condenser disconnected, then replace condenser. Note: Use only standard Ford condensers. Any other may damage the gauge system.
 - (c) Original Tank Unit is damaged or defective and must be replaced.

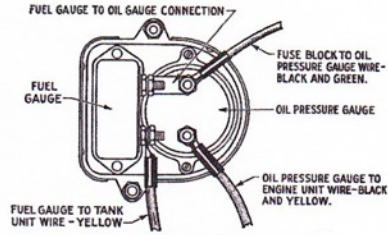

Fig. 477

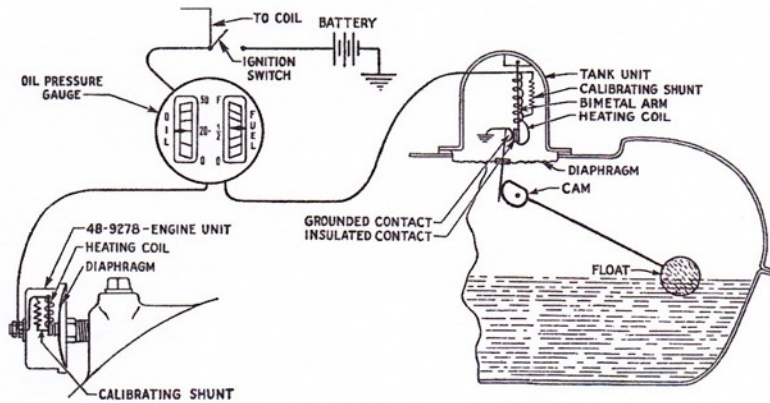

4. If Gauge Unit performs the same with new Tank Unit as it did with the original Tank Unit, then check wiring.

To Check Wiring

1. If wire connecting Tank Unit to Gauge Unit is broken or grounded, repair or replace. If both wiring and Tank Unit check okay, then check the Gauge Unit.

To Check Gauge Unit

1. Disconnect wires from Gauge Unit being checked and attach to new Gauge Unit. Turn on Ignition Switch.
2. If new Gauge Unit reads correctly, then replace original Gauge Unit.
3. If new Gauge Unit reads the same amount as original Gauge Unit, then
 - (a) Previous checks were not properly made, or
 - (b) Installation was okay to begin with.

Corporate Minutes

Get ready for a fun day exploring some of San Diego's historic sites. First, we will visit the 110 year old Marston Mansion, built in 1905 by George Marston, a prominent San Diego dry goods retailer. We will enjoy a docent lead tour of this 8500 square ft, three story structure located at the north end of Balboa Park. And here's the great news! Although vehicles are not normally allowed on the mansion grounds, we have been granted permission to enter the grounds with our Early V-8s and park under the entry portico for a photo session. In addition, they can remain parked there while we tour the mansion. Two other historic stops are planned - one at a 71 year old San Diego restaurant for lunch. Tour signups will be accepted at our January 5th meeting. The exact tour date will be announced at that time."

Our **November Tour** took us to the California Wolf Center in Julian. We had a great docent led 90 minute tour. We were then treated to a "Happy Hour" hosted by Jay & Janet Harris. Dinner that evening was at Romanos Italian restaurant, with great food. Some members stayed overnight and enjoyed a complimentary breakfast at the Julian Lodge Bed & Breakfast. It was then off to town shopping on our own. A big shoutout to Jay & Janet on another great tour! By the way we had 20 members attend and it appeared to be a modern tour with only one early V/8 occupied by Dan & Bonnie Krehbiel!
