" Nominations for the Board of Directors"

vacancies coming up in
2016 are going quite well.

As a reminder, there are
three seats that need to be
filled - Vice President and
Secretary due to the two

year term limit imposed by our bylaws, and
President, which position has run only one
year of the two allowed. All members are
invited to nominate another member, or
volunteer for one of these positions
themselves. In all cases, the nominated
member must agree to be nominated and be
willing to assume the duties of the position.
Final nominations will be heard at our general

membership meeting on Tuesday, October 6,
2015. The final vote to determine which
candidates are elected to fill all positions will
take place by voice vote at the regular
November membership meeting. In the event
there is more than one candidate nominated
for any office, voting will take place by
written ballot rather than voice vote, and the
results announced in the December Valve
Chatter. Please be reminded that, even though
nominations have been received to fill all
positions, the nomination period is still open,
and additional nominations can be made at
the October general membership meeting. "

Jay Harris,
Nomination committee Chairman

Tom Hamlin finds Patsy her dream car! He had been looking for over a year for a 1946 Ford

convertible Maroon in color. Tom located this one in Saratoga, Ca. Patsy did do her own

carburetor re-build on the car. This was her second re-build, her first was a total big block engine for Tom's truck.

Patsy doesn't just rebuild carburetor's & engines. She is also a seamstress and made lap robes for their 1933 Ford Phaeton. One is a Log Cabin design and the other

pictures of the Phaeton. Good job Patsy!! Oh, good find Tom!!

ride through De Luz to Fallbrook. Their destination - the Beach House Winery, a small, mom & pop operation located in the hills of northern Oceanside near the Fallbrook border. Owners George and Kim Murrary were waiting for us. Having agreed to open the winery for just our group, as they are normally closed on week days. After George deftly guided the parking of all 14 of our Early V-8 and modern vehicles on his rather small parking pad, we all went inside the air conditioned tasting room- quite welcomed on that very hot day. Wine tasting and conversation followed, and George gave us a talk about how he and his wife came to be wine makers after his 32 years with SDG & E. The Murrays were gracious hosts, but all things have to

come to an end, so by noon we made our way back into downtown Fallbrook for a lovely patio lunch at the Garden Center Cafe - a local favorite.

Then everybody departed for home, and another Palomar tour was in the books.

PRESIDENTS MESSAGE

Grampa Westra spreading the Bull!!

With every project we start there is a “this is where we are at and this is where I want to be” moment. Such is true with our recently purchased 1950 Ford Fordor from Oregon. Found on E-Bay and purchased with a click of the button and no eyes on the car. Do I regret it, NO! Utilizing the resources of this club is something we all should put foremost in our minds. I should have called an Oregon member and asked them to go look at the Fordor and tell me their unbiased opinion. I should have done some research on the make and model before I clicked “place bid”. I should have asked for a picture of the VIN plate to verify that the paperwork was correct. (Wrong VIN number, another story) Those on email have been watching the process of new tires, new head gaskets, new wiring system (big item), new shocks, and new universal joints. I was pleasantly surprised just how easy to install and reliable the dash wiring harness kit was that I purchased from C&G Ford Parts. I don’t know if it’s a good thing that the staff at C&G doesn’t ask for my name or account number anymore. They do smile and recognize me when I walk in. However, this is where we are now and looking back I wouldn’t have changed a thing. Our “Annie” as we call her, is fun to own, fun to drive, and fun to work on. I write to you before leaving on the 2015 Harris Tour to the Eastern Sierra’s. Our journey starts in Hesperia and travels Highway 395 north for five days. A highway that Cheryl and I are very familiar with. During our ownership of our lodge on the shores of Lake Almanor, we frequently traveled 395 from Susanville to SoCal. Driving our 1950 (without air-conditioning) will be a unique experience. I am so glad that we have traveling companions that are familiar with our class of early Ford. Changing gears let’s talk about Christmas. Yep, you now have less than 100 days before the wrapping paper will be ripped and torn and discarded all over your floor. Have you reserved your spot at our annual Holiday luncheon? Check out page XX?? for details. October is usually associated with Oktoberfest. We have several opportunities to drive our early Ford V8’s. One is to the Annual Car Show and BBQ at C&G Early Ford Parts in Escondido. I’m sure I know the way so if you want to caravan with me meet at the flagpole in Temecula the morning of Saturday, October 17th. I plan on leaving the flagpole at 8:15AM. That same weekend as well as the following weekend the Antique Gas & Steam Engine Museum is Celebrating the Lost Arts of Yesterday. Our very own Chuck & Marilyn Rounds have a special connection with the museum. This event starts at 9AM each day in Vista, CA. My intentions are to get there one of those two weekends. You see tractors and I have a special bond. I spent a lot of my childhood on a tractor. Pulling hay trailers, kicking in the hay back into the manager and even hauling that lovely byproduct that our cows produced. When you have pictures such as this, you remember your first tractor. (I still have it). I want to welcome our new Editor, Bob McClelland. You have received the most up to date, modern, mind blowing Valve Chatter. Make sure you send Bob and Sharon a word of thanks. I leave you with: " Of all the follies the elder generation falls victim to this is the most foolish, namely, the constant criticism of the younger element who will not be and cannot be like ourselves because we and they are different tribes produced of different elements in the great spirit of Time." Henry Ford;

Best Wishes, Cal Westra President!
